ENDPOINT SECURITY
Configuration Assessment
Scan your assets as part of a configuration assessment audit.
Malware Detection
Check indicators of compromise triggered by malware infections or cyberattacks.
File Integrity Monitoring
Alerts related to file changes, including permissions, content, ownership, and attributes.
THREAT INTELLIGENCE
Threat Hunting
Browse through your security alerts, identifying issues and threats in your environment.
Vulnerability Detection
Discover what applications in your environment are affected by well-known vulnerabilities.
MITRE ATT&CK
Explore security alerts mapped to adversary tactics and techniques for better threat understanding.
SECURITY OPERATIONS
IT Hygiene
Assess system, software, processes, and network layers to detect misconfigurations, unauthorized changes, and anomalies.
PCI DSS
Global security standard for entities that process, store, or transmit payment cardholder data.
GDPR
HIPAA
CLOUD SECURITY
Docker
Monitor and collect the activity from Docker containers such as creation, running, starting, stopping or pausing events.
Amazon Web Services
Security events related to your Amazon AWS services, collected directly via AWS API.
Google Cloud
GitHub

W. Endpoints Deploy new agent
API default
Server address:
This is the address the agent uses to communicate with the server. Enter an IP address or a fully qualified domain name (FQDN).
Assign a server address
192.168.29.94
Remember server address
Optional settings:
By default, the deployment uses the hostname as the agent name. Optionally, you can use a different agent name in the field below.
Assign an agent name:
Windows10vmagent
The agent name must be unique. It can't be changed once the agent has been enrolled.
Select one or more existing groups:
Default
Run the following commands to download and install the agent:
Invoke-WebRequest -Uri https://packages.wazuh.com/4.x/windows/wazuh-agent-4.14.0-1.msi -OutFile $env:tmp\wazuh-agent; msiexec.exe /i $env:tmp\wazuh-agent /q WAZUH_MANAGER='192.168.29.94' WAZUH_AGENT_NAME='Windows10vmagent'
Requirements
You will need administrator privileges to perform this installation.
